## THE SOCIETY OF THE BLACK NATION

did, if you remember, I said the 24 Elders were originally 12 Gods and each God separated into a man and a woman. We are told that this happens with every two Black people on earth, brothers and sisters. Before you became a brother or a sister, you were united as One with another. You then separated to be born as a boy and she as a girl.

- 69. Have you ever wondered about the mystery of soul mates, or love at first sight?
- 70. Peace. Thanks for the information. It's very enlightening. I do have questions for you:
- 71. ARE there really soul mates? How would they recognize each other?
- 72. How did the ancestors make the scientific information PRACTICAL in the daily sense? I mean how did they use it once they understood its nature? I'm afraid science as we know it, as you alluded, has 'evolved' through much more than a bunch of numerical formulas.
- 73. Are we going to evolve back into the only race on the planet as we once were? Is this idea in line with the repetition of cycles that you mentioned?
- 74. How would the ancestors use this information to fully understand their true purpose on this plane?

75. Yes, every Black person on earth has a soul mate. Many people do find their soul mates and live a happy and fulfilled life. But many more do not. It's very difficult to find a soul mate "by chance", although it does happen. The instances where people find their soul mates are much more common among tribal or so-called indigenous people than they are among us "western-civilized" people. The reason for this is quite obvious.

76. Modern culture has been very successful in disrupting tribal cultures. The people in the old days had a definite and clear scientific system of uniting every person with his or her soul mate.

77. The way white people succeeded in disrupting this aspect of our culture was by teaching young people to be "independent" of the influence of their elders.

78. When I was growing up, there were still some aspects of soul mate matching still going on among our people, where adults were responsible for matching young people with their soul mates. Young people were taught by the intelligents of modern culture (especially white missionaries who lived among our people); they were taught to rebel against having their mate chosen for them by their parents or relatives.

## BLACKROOTS SCIENCE

CHOOSE participation in a "light" supremacy system, and when the shift of power occurs from lighter to Black, I could benefit from that too? I hate to be rambling here, but I hope you follow me. I'm not sure at this point I understand why people are being allowed to believe that they can walk the line inconsequentially if indeed we are to survive. Help me understand here brother. Help me understand...when you have time. There was something else I meant to ask you. Recently, I went to see a movie called "What the Bleep Do We Know?" Produced by Europeans, it was philosophical in nature, and as usual they were discussing issues that we've been knowing for eons. There was one scene in particular, however, that fascinated me; they showed the work of a Japanese scientist who'd researched the effects of the energy of certain words (spoken and written) and thoughts on the nature of water molecules. Positive phrases produced (frozen) water molecules that were beautiful and almost perfectly symmetrical. On the other hand, negative energy produced deformed molecules. He related this to the fact that the human body is primarily composed of water. Someone told me that the same basic information showed up in the Meta Neter, but I couldn't verify it because I had a difficult time getting through that book when I tried several years back. So, since you've been so kind in sharing your perspectives, I was hoping that at some point you can tie this particular information in with yours. Peace again...

- 69. On your question about the movie: The human mind is creative. It affects inanimate matter as well as life (animals and plants), as I explained in a previous post about the true law of evolution called the law of integrity. Moral character creates beautiful forms and immoral character creates ugly forms. Starting next week I'll discuss Biology/Genetics and get into more detail about how the mind creates. To your first question:
- 70. There is punishment for people who try to "lighten" the Black Nation. Nature has been reducing the sperm count of white men now for the last 100 years. The rate of reduction has increased over the past few years, and will continue to increase until they can no longer procreate. That's why those who know are studying cloning.
- 71. On the female side the fertility of white women is decreasing at a rapid rate. They have to use more and more drugs to conceive. This is true also for light-skinned Black men and women.
